Pure Water C-25 Automatic Water Purifier

Commercial Grade Multi-Use Water Distillation System

- Produces 99.9% Pure Water
- Produces Up to 25 Gallons Daily
- 25 Gallon Built In Storage Tank
- Built-in Pump
- Network to Remote Locations
- Many Commercial Uses
- Stainless Steel Construction
- Automatic Drain to Reduce Maintenance
- 1 Year Commercial Warranty
- Multiple Safety Shut-Off Sensors
- Green Alternative to Plastic Bottles
- Small Footprint
- Eliminates Need for Water Delivery
- Easy to Install

Made in the U.S.A.

Convenient, Consistent, High Purity Water

The C-25 Commercial / Industrial Water Distiller is an excellent choice for dental clinics, medical facilities, metal shops, print shops, restaurants, schools and more. It has a 25 gallon built-in storage tank and produces up to 25 gallons of distilled water daily.

C-25 Water Purifier

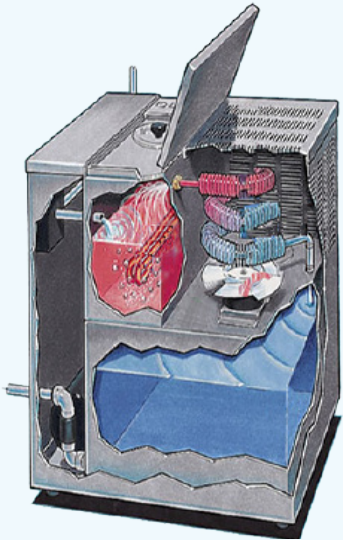

Specifications

item #	39999C
width	22" (56 cm)
depth	16" (41 cm)
height	38" (97 cm)
machine weight	129 lbs (59 kg)
current draw (240V)	14.5 amps
total wattage	3,200 watts
maximum daily production	25 gallons (94 L)
storage tank	25 gallons (94 L)

The Purification Process

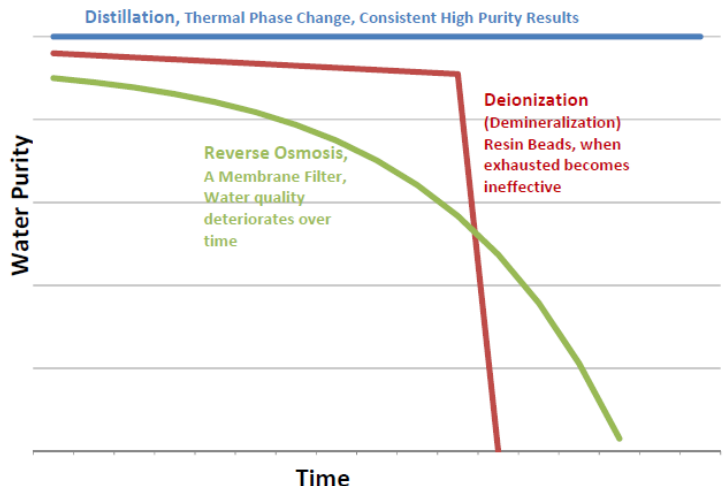

Just as nature transforms ocean water into pure rain water, distillation replicates the Hydrologic Cycle.

- 1 Tap water is drawn into the boiling tank.
- 2 The heating element boils the contaminated water transforming it into vapor.
- 3 The water vapor passes into the condensing coil leaving the contaminants behind.
- 4 The fan cools the vapor, transforming it back to water – pure, vapor-distilled water!
- 5 Distilled water is pumped to a faucet or bottleless cooler.

Distillation Effectiveness Over Time

Distillation provides the highest water purity over time and outperforms reverse osmosis or deionization. The C-25 can be used wherever pure water is needed from breakrooms to print shops to medical facilities. The C-25 is a long lasting water purifier that will stand the test of time.

Perfecting Purity™
